--	--------

Feeding recommendation

1 – 3 times daily. Press 15 – 20 ml in the dosage device and pour on the concentrates.

Shake well before use!

Keep out of reach of children.

Inflammable!

The product irritates the skin and should not get into the eyes!

Take care of doping relevance.

Recommended use:

Because of its aromatic flavour, Phytobronchial P is very tasty and is consumed willingly by the horses.

For substitution of the feeding with valuable herbs and natural essential oils.

A feeding enriched with Phytobronchial P may increase the defences of the respiratory tract and additionally stimulate the metabolism of the bronchial system.

Storage

Shelf life guarantee is only valid for unopened packages, stored at a cool and dry place.
